Examiner's Reasons for Allowance

6. The following is an examiner's statement of reasons for allowance:

The prior art fails to render obvious the claimed radar device including, inter alia, varying input data into a D/A converter by a minimum conversion unit or by a unit obtained by multiplying the minimum conversion unit by an integer and a voltage of a desired waveform varying with time series become substantially equal to each other, a time control means for giving the input data to the D/A converter at the timing, and an oscillation means for varying an oscillation frequency in accordance with a variation of the D/A-converted voltage, as operatively interconnected and functionally claimed and provides a waveform generation method and radar device which are capable of improving the accuracy of a waveform to be generated, even when a D/A conversion element, such as a resistor, etc. had numeric irregularities. Clearly the prior art does not provide for the claimed system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
